14th, March, 2011

Subject: Report for our situation in the terrible earthquake in Northern Japan

We would like to express our sincere sympathy to victims of this terrible earthquake occurred in Tohoku area at 11th, March 2011.

Regarding the influence of this earthquake on us, we would like to report you as follows (at the point of AM 11:00 14th, March):

Influence on our production, production supply

Situation of HQ, Gunma plant (700, Shukuoorui-Machi Takasaki City, Gunma)

1) There is no injury in our company.

2) A part of our office, plant had got damaged, and we suspended operations in our plant instantly, however this situation is not a critical situation for our production.

From 12th, March to 13th, March we operated recovery of our plant and we have already started our plant operation. We consider that there is no influence of this earthquake on our production and products supply.

From now on, there is a possibility that Situation of Tokyo Electric Power Company's rotation blackout in Kanto area influences on our production and products supply.

Sincerely,
